**NOBEL'S EXPLOSIVES CO.**

LIMITED.

Gelignite and Dynamite

In cases of 50 lbs. ea., nett weight

Gelignite is a new and very powerful explosive. Besides

possessing great breaking power it remains itself for use in

this country by reason of the time after explosion not being

injurious to the works. On this account some great advantage is obtained over most explosives in its use, and more especially when operating in confined places.

Also patent Dynamite caps and Brockford's patent

use. For further information and prices, apply to the

Agents for Brazil:

Watson, Kitchin & Co.

Rua 1<sup>o</sup> de Março, Block B, Janeiro.

## FELLOWS' HYPOPHOSPHITES

THE GREAT TONIC AND STRENGTH GIVER

This medicine invented in Canada in 1865 has  
been for years and is now prescribed by the leading  
physicians in all parts of the world, who attest  
that it gives the most satisfactory results of any  
remedy yet produced. The diseases for which  
they use it, and in which they claim the greatest  
results are the following:

Lung Diseases, Imperfect Nutrition  
Nervous Diseases, Dyspepsia  
General Debility, Anemia

and in consequence from all wasting diseases.

The immediate beneficial effects of FELLOWS'  
SYRUP in these cases of emaciation and weak-  
ness produced by lung illness whether from  
pulmonary diseases or fevers, prove its tonic  
virtues and its value in accelerating digestion and  
assimilation.

FELLOWS' SYRUP is too well known to  
require further remark; it cannot be closely imitated  
though many persons have sought to trade upon its  
reputation.

Full directions accompany each bottle.

FOR SALE BY ALL DRUGGIST AND  
CHEMISTS.

Sole Agents:

the Republic of Uruguay.

Circulates in Montevideo and the Republic of Uruguay,  
Buenos Aires and the Argentine Republic, Europe and the  
United States.

This paper is absolutely independent and is the acknowl-  
edged representative organ of English interests in the Re-  
public.

FIRST CLASS ADVERTISING MEDIUM.

Advertisements and subscriptions received by post.

For terms, etc., apply to THE MANAGER,

Calle Treinta y Tres 61. Montevideo.

## BUSINESS NOTICES

**Chubyna Ink.**—The Chubyna ink is one of the most desirable writing fluids ever offered to the public. It is the invention of Dr. Cunha Sales, who prepares it by a chemical process from the Chubyna, a tree of the Pernambuco woods. All who have tried it unanimously endorse it as an ink without a rival for its manifold excellent qualities. Its conspicuous qualities are: It dries rapidly dispensing with the use of blotting-paper; it resists the action of water, so that writing can be wetted and rubbed without injuring it; it writes as well on moist as on dry paper; it does not oxidize a steel pen. Chief of all it is an indelible ink and ensures the perpetuity of written documents. Time does not obliterate it and no acid can remove it, thus preventing the alteration of writing. It is an absolutely clean ink and serves as well for copying as for ordinary writing. The salesroom is temporarily located at No. 230 Rua da Alfamega, sobrado.

**Ao Grão-Turco.**—This prominent establishment of Messrs. Estella & Co. at No. 64, Rua do Ouvidor, is replete with a splendid assortment of goods particularly suitable for the holiday trade. Their stock of objects of art, children's toys, toilet articles and articles for salons, perfumery, &c., is complete and can not be equalled for infinite variety, quality and elegance. An examination of this vast collection of novelties and useful and ornamental articles can not fail to discover something that would make a fitting present. A special exposition of fans of all kinds from the ordinary to the most highly ornamented and richly designed, is made every Saturday and should be seen. The prices are plainly marked and are half those of any other house.

**Companhia Grande Hotel de Petropolis.**—This company owns the two principal hotels in Petropolis, the *Bozampo* and the *Oleanna*, provided with every desirable comfort for guests and with the service of first-class establishments. The *Hotel Bozampo* is situated at Nos. 21 and 23 on the Avenida 15 de Novembro, a broad and attractive avenue. The *Hotel Oleanna* is at the base of a little mountain, fronting the Praça D. Afonso and with the charming river Quitandinha flowing at its side. Both hotels have pleasure-placens for excursions in the romantic scenery of the suburbs and carriages to convey passengers to and from the railroad station. This is the season of the year to hear in mind that Petropolis is considered by hygienists to possess an *Alpine climate*, or the climate of a high altitude, which ensures its entire freedom from the prevailing diseases of the summer and establishes its character of a veritable health-resort. The two hotels described are recommended as the largest and most fashionable in Brazil. In Rio de Janeiro the company has an office at No. 28, Rua de S. Pedro where you will be courteously furnished with any further information you may require.

**Machinery for mineral prospecting.**—A large field for intelligent exploration in Brazil is mining. Little has been done in this regard. Enterprising men have organized companies for many purposes and, in not a few instances, many companies with similar ends. Mining has been neglected. There is no substantial reason for shutting one's eyes to this most important industry. Geologists and mineralogists who have investigated Brazilian formations, declare that they possess wonderful mineral riches. There is no country that has ever developed its mines systematically but what has risen in wealth and influence. There is a large amount of coal imported every year. Now it is claimed by competent authorities that the coal fields of Brazil are considerable. The same is true of other minerals. Instead of importing these things, why not open the Brazilian deposits and develop them? The country will cut off important items of importations and add to its own wealth by making the earth yield up its treasures.

A company organized just to prospect for mineral wealth in localities marked by scientific authorities as possessing the same, can not fail to pay gratifyingly large dividends to its shareholders. By penetrating under the surface of the earth several hundred or several thousand feet will astonish. The revelations made will be surprising. They usually are, and Brazil does not differ from other countries only perhaps in possessing more of nature's abundance.

Let a mine be discovered and immediately a center of population springs up. A city is built and it always provides itself, too, with the most modern conveniences. Mining always leads to the most progressive civilization. Its wages are high and the recipients can afford to, and always do, surround themselves with the best comforts of life.

A late patented portable drilling machine, durably constructed and easily manipulated, suitable to go down to a depth of 2,500 feet, piercing all kinds of strata and carefully presenting to the proprietor the exact arrangement, quality, character, richness, etc., of the deposits, can be purchased at a reasonable outlay. After the operations of the machine are concluded you can tell precisely what has been accomplished; you can calculate with great accuracy what profits can be made in developing any deposits discovered. Explorations can be conducted anywhere. It is not necessary to go far into the unknown interior of Brazil where even if valuable mines were discovered, it would not pay to work them on account of remoteness from transportation lines.

By addressing the South American Advertising and Commercial Agency, No. 125, Rua do Ouvidor, 1st andar, you can obtain information of a portable drilling machine, just adapted for thorough and accurate prospecting.

The Bureau also has a bonanza mining grant for sale which it will pay a party with capital to investigate.

## THE RIO NEWS

PUBLISHED WEEKLY.

A. J. LAMOREUX, Editor and Proprietor.

Contains a summary of news and a review of Brazilian affairs, a list of the arrivals and departures of foreign vessels, the commercial report and price current of the market, tables of stock quotations and sales, a table of freights and charters, a summary of the daily coffee reports from the Associação Commercial, a synopsis of the monthly balances of local banks, and all other information necessary to a correct judgment on Brazilian trade.

(Cash invariably in advance)

Subscription: \$2.00 per annum for Brazil.

\$1.00 or £2 abroad (cash when paid here).

SINGLE COPIES: 400 reis; for sale at the office of publication, or at the English Book Store, No. 67 Rua do Ouvidor.

All subscriptions should run with the calendar year, or terminate on June 30th and December 31st.

EDITORIAL AND PUBLICATION OFFICES:—

79, Rua Sete de Setembro.

RIO DE JANEIRO, JANUARY 19th, 1892.

There is an exceptional amount of common sense in the recommendations of the São Paulo merchants' committee in regard to improving the port of Santos. Some of the measures recommended are of course inapplicable to the existing emergency, for they imply works which require a long time for their execution. The temporary measures recommended, however, are good, for they afford relief at once. It is so dangerous to land immigrants there now that the new *hospedaria* built may very properly be transformed into a customs warehouse. Sheds should also be constructed as rapidly as possible for the same purpose. The recommendation that temporary piers be constructed for the discharge of vessels is one that we advanced in these columns a long time ago, and it ought to be carried into effect at once. The increase in the warehouse facilities of the S. Paulo railway and in the hours of traffic are also worthy of adoption, for they afford the only direct means of getting this heavy accumulation of merchandise up country. To this should also be added some provision to enable the company to compel consignees to take away their coffee immediately on its arrival, and not use the railway waggon for storage purposes. This provision could be profitably extended to all the stations of the S. Paulo and Paulista lines, where merchants are only too frequently accustomed to take possession of their goods whenever it suits their convenience to do so. A railway is under no obligation whatever to rent its freight waggons for storehouses. A few practical measures like these would soon make a decided improvement in the situation at Santos, and it is to be hoped that no more time will be lost in carrying them all into effect.

ONE of two things is certain—either the Deodoro faction is playing a timid game of "bluff," or the stock gamblers are making very frequent use of disquieting rumors to influence the street in their operations. For the past month there have been constantly-recurring rumors of a counter-revolution, by which the Floriano party is to be turned out and the Deodoro party restored to power. And, notwithstanding the fact that these rumors never materialize, they are still circulated and still believed. We do not doubt the wish of many of the Deodoro faction to regain their lost ascendancy, but we very much doubt that Deodoro himself is a party to their schemes, and we have not the slightest belief that they have the courage to fight for it. If they can scare the Floriano party into concessions they will be quite ready to do so, but the government is apparently not so easily scared. There are indications that a vigorous resistance will be made to any effort to overthrow the present government, and this is what the malcontents do not want. In regard to the supposition that these rumors are the work of speculators, there is only too much reason for believing that this is the real cause. There is a very large group of men still on the street who have lost heavily and who are using every means, fair or foul, to recover their losses. If an alarming rumor will serve their purpose, they will make use of it. It is not easy to trace such a rumor to its source, but if it

were possible it would serve these fellows right to send them up for three months, just to give them an opportunity for reflection. There are a thousand interests affected by these false reports, and the public have a right to claim protection against them. There is not a business or an industry in this city which has not suffered heavily from the insane speculations of the past two years, and it is full time that the authorities should reflect whether it is better to let the speculators continue to play fast and loose with the legitimate business enterprises of the country, or to put a rigid check upon their operations.

The financial questions of the hour are still engaging much attention, in spite of the heat and the antipathy which many are beginning to feel against the political priorities which seem to engage so much official attention. In Congress a strong party now favors the assumption by the national government of the whole bank circulation, and it is not at all unlikely that this policy will soon prevail. We have always advocated a decentralized bank issue, just as we believe in a decentralized form of government, but we must confess that neither of these ideas is likely to prove successful in Brazil. The attempt to organize a federal republic was a failure from its inception, because its organizers were ignorant of the very first principles of republicanism and were unable to keep their hands away from the exercise of absolute power. What they organized was a centralized form of republican government under the delusion that they had created a federation of independent states. In their banking system they have done exactly the same thing. They have organized a scheme of centralized banking under the idea that it is a decentralized national system. This system has been modified to suit the purposes of one man, and his word has been, until very lately, the law governing the whole organization. Just how far the contradictory and ineffective laws regulating the emission of paper money have been observed, no one knows; but we do know that the issue has attained enormous proportions, and that it has not always been made strictly in accordance with the law and with sound banking principles. On the 13th the *Jornal do Commercio* published an article based on the statements received from a trustworthy source, to the effect that the Barão de Lucena permitted three banks—*Republica*, *Credito Popular* and *Emissor de Pernambuco*—to issue not less than 50,000,000 without making the deposits in the treasury required by law. The *Jornal* further states that the Banco de Credito Popular has not deposited one real to guarantee its emission of 23,400,000. It is simply incredible that a minister could have been so inflated and so blind to the consequences, as to do an illegal and unbusiness-like act such as this; and it is even more incredible that no official has taken one single step to have the man prosecuted for such illegal acts. Under the circumstances the only remedy and the only security lies in the assumption of this enormous circulation by the government itself. It may be hard on the tax-payers, but certainly not more so that it will be to let this chaotic state of things continue. The sooner the treasury assumes the responsibility for all these acts, for which the government is equally responsible with these parasitic banks, the sooner will there be a return to a better state of things, not only in financial affairs, but in commerce and industry.

## THE HOSPITAL.

We had designed to publish the list of subscribers for the new hospital in this issue, but as the list is still far from complete, several of the subscribers not yet having determined the amount which they will contribute, we have concluded to defer the publication until a future issue. Up to yesterday the Treasurer had received a little over \$3,000 from the foundation fund, which is sufficient for immediate necessities. Several influential subscribers, however, have not specified the amount of their subscriptions, and it is expected that the names on the list are good for at least 125,000\$. This sum, although large enough for present purposes, will not enable the association to enlarge and reconstruct its buildings next year as may be found necessary, and it is hoped that the friends of the enterprise, therefore, will continue to use every effort to increase the fund for this purpose.

## POLICE ASSAULTS.

Rio de Janeiro, 14th January, 1892.

To the Editor of the Rio News:

Sir:—I have read the statement concerning the brutal treatment of three of my countrymen with the greatest indignation, and I consider you are entitled to the thanks of every foreigner in this city, particularly the English-speaking colony, for your admirable article on the subject.

Could anything be more inconsistent than that a gentleman should be arrested by a policeman recruited from the criminal class.

This sort of thing has got to stop, and most energetic representations should be made by the English-speaking people here to their respective consuls upon the subject.

Commissions of the peace, far from it! If such an outrage had been perpetrated in the States, the people would still have a remedy for such delinquents, namely Judge Lynch, who is a good power, where every justice may fail to chastise offenders; and everybody knows, or at least ought to know, that the United States government is chiefly remarkable for protecting their citizens, all over the world, but England has indeed sadly degenerated in this respect since the days of Oliver Cromwell.

Everyone will agree with your remarks, viz., "If one of our number is guilty of an offence against the law, let him be fined or otherwise punished as the law directs."

It is indeed "full time that some effective step should be taken to secure the foreigner against further fatalities of this character."

I am, Sir, Your obedient servant,

Wm. Manner.

## SANTOS ATHLETIC CLUB.

The annual general meeting was held by kind permission of Mr. E. Old, in the "Chacarra Ernest" on the 18th inst.

The following officers were elected for 1892:

President—W. Hallie, Esq.  
Hon. Treasurer—A. S. S. Esq.  
Hon. Secretary—F. J. Gilhorne, Esq.  
Committee: Messrs. L. W. Bailey, Barker, Fletcher, Truss, Baran and Harley.

Mr. Young was presented with a bat for the best batting average.

Mr. Truss with a ball for the best bowling average.

## TENNIS CLUB TOURNAMENT.

Singles—gold medal. Doubles—silver medal.

Singles—*Scoti Final*  
C. W. Young v. P. S. Barker. C. W. Young 6 to 4 and 6 to 1.  
A. L. Twissie v. H. Fussell. A. L. Twissie 6 to 4 and 6 to 5.

Doubles—*Scoti Final*  
C. W. Young v. A. L. Twissie. C. W. Young 6 to 4 and 6 to 3.  
Messrs. Gepp and Oslay v. Messrs. Lloyd and Fletcher 6 to 5.  
Messrs. Young and Elderly v. Messrs. Lloyd and Fletcher 6 to 3 and 6 to 2.

MR. HAVLAND'S TOURNAMENT.

Singles: Compulsion of Games.  
Doubles: Kailing whips.

Singles—*Scoti Final*  
H. Harley v. F. H. Gepp. H. Harley 3 games to 3.  
C. W. Young, a bye.

Doubles—*Scoti Final*  
C. W. Young v. H. Harley (suspended).  
Messrs. Gepp and Oslay v. Messrs. Elderly and Callumbe. 6 to 5 and 6 to 4.  
Messrs. Sanderson and Barker, a bye.

MR. HAVLAND'S TOURNAMENT.

Singles: Compulsion of Games.  
Doubles: Kailing whips.

Singles—*Scoti Final*  
H. Harley v. F. H. Gepp. H. Harley 3 games to 3.  
C. W. Young, a bye.

Doubles—*Scoti Final*  
C. W. Young v. H. Harley (suspended).  
Messrs. Gepp and Oslay v. Messrs. Elderly and Callumbe. 6 to 5 and 6 to 4.  
Messrs. Sanderson and Barker, a bye.

MR. HAVLAND'S TOURNAMENT.

C. W. Young v. H. Harley (suspended).  
Messrs. Gepp and Oslay v. Messrs. Elderly and Callumbe. 6 to 5 and 6 to 4.  
Messrs. Sanderson and Barker, a bye.

—A Monte Alegre telegram of the 17th says that the people there are refusing to take the shares of the new bank because of the provision which makes the president of the bank an appointee of the government.

—The R. M. S. *Chode* which entered the port yesterday was the first steamer to come in free of the port and light dues imposed by the new law promulgated on Sunday evening. —*Unioe de Vozes*, Monte Alegre, Jan. 11th.

—In addition to the usual quarantine, the Argentine sanitary authorities have resolved to subject all passengers arriving from Rio in medical inspection for ten days after landing. In this opinion, yellow fever is much less dangerous.

—Captain Meyer, the aeronaut, who made so many attempts to effect an ascension here but was always prevented by some mischance, has thrown up the sponge and gone to Brazil. The poor fellow must have lost severely by his three months stay here. His absence is greatly lamented by a number of persons who would like to witness his ascension and who have not got their money back. —*Monte Alegre Times*.

—The admirable invitation, the English Literary Society of Buenos Aires, has taken a new departure by organizing excursions for its members to places of interest in the neighbourhood. The first of these, to La Plata, came off last Wednesday with great success, and the next one will be to Tandil. There are several places in the neighbourhood of Montevideo which are well worth a visit, and there is no English Literary Society here to organize the excursion, nor is there enough in the community to get up such a Society. —(N. B. "Campana" is not, I think, it is good old Anglo Saxons.) —*Montevideo Times*.

—On account of the increase of yellow fever in Rio de Janeiro, the ministry of war has issued a decree declaring that port "infected." The local health authorities have consequently issued a decree imposing "quarantine" on all persons, baggage, and goods which do not comply with Par. 10 of Art. 8 of the sanitary convention. We believe an arrangement is pending with the Argentine health authorities that vessels from Brazil shall fold their quarantine in Uruguayan waters instead of proceeding to Buenos Aires as they have hitherto done. This would leave the local and suspected cases of yellow fever at one gate instead of sending them far and near. —*Montevideo Times*.

—The total national revenue of Argentina for the year 1891 was \$24,989,684 m/n and \$1,457,357 gold, the latter was received for import and export duties; the former sum includes \$47,860,293 for import duties; \$5,229,259 for export duties; \$1,019,090 storage, etc.; \$889,000 harbor and wharf dues; \$1,899,095 taxes (*Patente*); \$3,208,133 land tax; \$1,200,200 stamps; \$1,178,052 post office; \$715,800 telegraphic; \$1,413,343 salt and tobacco; \$48,602 sanitary; \$1,019,090 additional; \$1,019,090 consular; \$1,425,208 tax of 1% on bank notes; \$277,000 sale of lands; \$1,019,090, additional; \$1,425,208 tax of 1%; \$1,232,420 tax on spirits; \$702,580 tax on matches.

## LEGISLATIVE NOTES

JANUARY 12.—*Senate*.—In answer to inquiry from Senator Camacho, the president declared the bill on banks of issue would be valid in a few days. *Chamber of Deputies*.—Deputy Samuel Porto inquired with his bill for nationalization of the retail trade and exporting food products and duty, and had not yet been subjected to discussion. Deputy Torres asked for information on the bill and learned that it had been submitted by police authorities of the state of Rio de Janeiro. Deputies Urbano Marcondes and Francisco Borges declared the authorities accused Deputy Belchior Priore defended the bill for the organization of the states and Deputy Espindola Santo opposed it. Deputy Antonio Acevedo offered a substitute bill.

JANUARY 13.—*Senate*.—Senator Almeida Barreto, in answer to the speech of Senator Wanda Mello, declared that he had offered to assist Gen. Floriano Praxedes leaving Gen. Deodoro. On the contrary, he said, he and Floriano had agreed to maintain him in office. *Chamber of Deputies*.—Deputy Jose Nogueira proposed the prohibition of the importation of arms and munitions from the United States and the prohibition of the export of arms and munitions from the United States. He declared that he has received many threatening anonymous letters and that he is being dogged by persons with sinister intentions towards him. He was answered by Deputy Zuma. Deputies Francisco de Bulhões and Oliveira defended the bill authorizing the government to maintain abolished legations and note deficiency appropriations.

JANUARY 12.—*Senate*.—As a substitute for the bill of the Chamber of Deputies on banks of issue there was introduced a bill transferring to the government the responsibility for the notes issued by banks. Senator Rui Barbosa declared his invariable policy in such cases that the substitute bill is bankrupt and financial and political suicide. *Chamber of Deputies*.—The bill for the reorganization of the states was passed in 1st discussion by a vote of 57 to 50.

JANUARY 14.—*Senate*.—Senator Campos Salles said that what is now occurring in the states is the logical consequence of the previous state of affairs, and is not, as is alleged, the intervention of the general government in the domestic concerns of the states. Senator Rui Barbosa continued his speech in defence of his financial policy. *Chamber of Deputies*.—Deputy Vianna declared that a general strike is contemplated among the employees of the Central railway. He promised to make known at some future time the cause of the recent riot on that road. Deputy Francisco Cavallotti spoke on affairs in the state of Rio de Janeiro, pointing out the financial affairs of Gov. Portella's administration. Under this administration, he said, expenditure had rapidly increased. There, for instance, with pensions for retired employees had increased from 300,000 to 500,000. Deputy Seabra opposed the bill authorizing the President of the republic to maintain abolished legations and make

deficiency appropriations. Deputy Demetrio Ribeiro corrected some statements made by Senator Rui Barbosa. Deputy Barbosa Lima defended his bill declining null and void the acts of the government between Nov. 3rd and 23rd. The substitute bill of the committee on legislation does not, he says, answer the same purpose. It merely amends those acts, thereby recognizing their validity, while his own bill declares that they never were valid.

JANUARY 14.—*Senate*.—Senator Rosa Junior, in replying to the speech made on the previous day by Senator Campos Salles, said that if all governments had been deposited in the same manner as that of S. Paulo, he would have nothing to say against the allegations. Public opinion in S. Paulo was really contrary to the president of that state, but in other states the deposition of governor has been indicated by the government. Senator Rui Barbosa defended the substitute bill on banks of issue. He vigorously attacked the financial policy of ex-Minister Rui Barbosa and said that the Decree of Jan. 17th, 1891, had completely destroyed the cohesion of the last ministry of the presidential government. *Chamber of Deputies*.—Deputy Jesuino de Albuquerque complained of the delay in calling up the bill for the organization of the federal district. The municipal elections, he said, is undoubtedly a great victory, but it is a victory of a kind which, he said, would serve still greater delay. Deputy Marinho Rodrigues inquired whether Gen. Dantas and a year vessel had been sent to Pará to assist in deposing Gen. Clamindo de Queiroz, governor of the state, whose administration, he says, has the hearty support of the people of Ceará. He said that the Governor of Ceará, Sr. A. Clamindo de Queiroz, he says, that Dr. Pedro Velho, who governs that state, gave an exclusive privilege to his own factory for establishing a cement factory.

JANUARY 15.—*Senate*.—Senator Rui Barbosa announced that he is collecting data to answer the speech of Senator Ribeiro. He says he is tired of refuting every day charges that on the following day are repeated against him, and he complains very much of the manner in which the press, especially the *Jornal do Commercio*, reports his speeches. Senator Antonio Cavallotti attacked the bill for transferring to the government the responsibility for the issue of banks. He was answered by Senator Rui Barbosa, who returned the fire by a speech which he delivered in the city during the latter part of 1891. The year 1891, and the beginning of 1892. *Chamber of Deputies*.—Deputy Francisco Borges answered the speech made on the previous day by Deputy Marinho Rodrigues. Deputy Miguel de Castro said that he had been informed recently that the bill on banks of issue, which the governor of Rio Grande do Norte had sent him, was not yet in the hands of the president. He declared the mistake be corrected. It was not Dr. Pedro Velho who had made the grant. Deputy Belchior Priore defended the bill for the organization of the states. He said that the bill is going to permit a election to be held in Paraná before Congress acts on the question of state organization. The Chamber struck out of the bill on surplus equities and deficiency appropriations the clause authorizing the government to make appropriations for liquidating the affairs of abolished offices. Deputy Barbosa Lima's bill declining null and void the acts of the government from Nov. 3rd to 23rd was voted in 1st discussion. The bill on provisions and the bill for putting an end to the sanitary agreements with Argentina, Paraguay, and Uruguay were also voted in 1st discussion.

## PROVINCIAL NOTES

—The government of Bahia signed the state budget law on the 12th.

—It is stated that 30 or 40 health inspectors are to be appointed in Campinas.

—Comptroller 58 notes, of the 6th series, 8th stamp, are in circulation in Pará.

On the night of the 10th the printing office of the *Diário da Manhã* in Pará was attacked, and was damaged to the estimated amount of \$5000.

—A Rio Grande telegram of the 12th states that Vice-Admiral Peláez, much to everyone's astonishment, has retired from public life.

—It is stated that Comde de Leopoldina, now residing at Paraty, has applied to the New York Life Insurance Co. to insure his life and the lives of his children for \$100,000.

—The Companhia Agua e Luz do Estado de S. Paulo has offered to light the city of S. Paulo with electricity on expiration of the present contract with the gas company, for little over half the sum now paid.

—One cause of the block at Santos is said to be that the coffee warehouses of the S. Paulo railway company at that port being insufficient for the quantity of coffee, 250 freight cars are used for this purpose.

—Gen. Clamindo de Queiroz telegraphs from Ceará that he has the unanimous support of the people of that state, and Gen. Clamindo Praxedes has left Pernambuco with a war steamer and 60 soldiers to go to Ceará and see what Gen. Clamindo means.

—The editor of the *República* of Coritiba, Paraná, telegraphs that the scandals of official administration have reached such a degree that in the infirmary of Dr. Menezes Doria 127 prescriptions were charged over 11,000. This is a business which should be investigated.

—The law faculty at São Paulo having been consulted by the minister of interior, has decided that the primacy of the Princess Isabel is proper, and that the civil laws, notwithstanding their political character. One opinion is to the effect that the property can revert to the state only in case of the death of the Princess without legal heirs.

—The good people of Porto Alegre, Rio Grande do Sul, are now enjoying a season of small-pox and typhus fever.

—The S. Paulo papers state that there were 159 cases of yellow fever in Santos on the 14th. From all we hear this is much under the actual figure.

—The river steamer *Diamantina* arrived at Montevideo on the 18th from Corumbá, Mato Grosso, with several cases of beri-beri on board.

—The town of Taubaté, S. Paulo, is to have a new three-story market with cold-air rooms, and all the modern conveniences, including an ornamental garden.

—The post-office and telegraph employees are asking for higher salaries. The increased costs of living have rendered it very difficult to live on present salaries.

—A telegram from Campinas of the 17th says that the projected purchase of the English line by the Paulista company has produced a bad impression in that city.

—The lack of small notes is raising much inconvenience throughout the interior. In S. Paulo it is charged that the sub-treasurer gives small notes only to favored friends.

—The governor of the state of Rio de Janeiro has sent a commission to Catagolita for the purpose of inquiring into the best means of preventing the spread of yellow fever in that city.

—Contraband telegrams are still received from the state of Santa Catharina over the attitude of the people toward the usurping military government which has fastened itself upon them.

—When the governor of a state telegraphs to Rio that he has the unanimous support of the people, you risk very little in predicting that before many days have elapsed he will be deposed.

—The state of Rio Grande do Sul received 105,578 immigrants during the past year, of which 10,248 were Italians, 2,204 Russians, 1,960 Spaniards, 1,491 Germans, and the balance of diverse nationalities.

—The governor of S. Paulo has offered every assistance to the local authorities of Santos and S. Vicente for the relief of those places during the continuation of yellow fever there. He has already sent money, physicians, ambulances, etc.

—Gen. Cesario belongs to the homeopathic school. Telegrams have been the cause of all his woes, but he continues to telegraph with unabated vigour. The general evidently thinks that the whole out of hair of the dog is good for medicine.

—The state of Ceará is now in the throes of revolution. As the people themselves are not inclined to depose their governor, Gen. Clamindo de Queiroz, the national government has sent Gen. Canipães to keep up there with a military force to do it for them. If the people of Ceará have any spirit at all they will resist Gen. Canipães on a shudder, with their complements.

—The committee, appointed at a meeting of the porters held in S. Paulo on the 10th and of the 13th a conference with the president of the state and placed in his hands a petition memorializing the President of the republic on the block at Santos. The committee asks for prompt action in regard to the discharging of vessels and storage of merchandise at that port, suggesting that the immigration be diminished there, and other available buildings be used temporarily as warehouses; that the construction of temporary piers be authorized; that the quay, thus far finished by the *Empresa Constructora*, be at once put to use; that the hours of service at the custom-house be increased; that the free fiscal for withdrawing merchandise be diminished; that the process for the entry of merchandise be simplified; that the contract with the S. Paulo railway be strictly enforced; that trains be kept constantly running for twenty hours every day; that the motive power at the inclined plane be increased; that the company's warehouses in construction at Santos be completed; that a larger working force for handling merchandise be employed; that the rolling-stock on the central railway be increased so as to facilitate the shipment of merchandise from Rio to S. Paulo.

## RAILROAD NOTES

—The *Pais* of the 13th contradicts the report that a general strike is contemplated by the employees of the Central railway.

—The Central railway has suspended until further notice the shipment of goods from S. Diogo and Cambaia stations. Why would it not be a better plan for the government to close the line altogether?

—The São Paulo state government has authorized the superintendent of public works to notify the Sociedade company to modify their passenger cars and part of their rolling stock, to fence their lines and change their time-tables, all within a period of nine months under the penalty of a fine thereafter of 1,000 a day.

—The *Jornal do Commercio* of the 13th states that an agreement has been reached in regard to the transfer of the English road to the Companhia Paulista. The capital is fixed at \$4,500,000. All claim to an exclusive privilege for the terminals at Santos will be relinquished. Donkeys, mules, and brand and narrow gages will be laid. The rates will be lowered, and the road will hereafter be under the jurisdiction of the state government of S. Paulo.

—The committee appointed by the merchants of S. Paulo held a meeting on the 17th and resolved to protest against the sale of the S. Paulo railway (English line) to the Paulista company. They claim that the present capital of the English company will soon afford a large reduction in tariffs, which will be defeated by the increase of capital proposed by the Paulista company. They also object to the Paulista company becoming the master of all the railways of that state.

## LOCAL NOTES

—Our long drought was broken to-day by a heavy rainfall.

—Gen. Deodoro, at his request, has been placed on the retired list.

—Dr. Manuel Martins Torres has been appointed chief of police, *ad interim*, of this city.

—Executive Decree No. 707 transfers to the state of S. Paulo the agronomic station at Campinas.

—On the 11th a man committed suicide in the Campo d'Aclamação park by shooting himself with a revolver.

—We are on the eve of an epidemic of manifestations. One is spoken of for Vice-President Floriano Peixoto during the present month.

—Comde de Figueiredo left for Europe on the 10th on the French steamer *La Plata*. The street has it that he is connected with a very important financial commission by the government.

—They say the pen is mightier than the sword; but Gen. Ray apparently thinks that the tongue is mightier than either, while Gen. Cesario claims that none of them is equal to the telegram.

—We are indebted to the American Bank Note Co. for a package of their beautiful and convenient calendars for 1892, accompanied by a new and equally convenient form of memorandum book.

—A vendor-keeper in Rua Sete de Setembro was cited yesterday because of a loss of 27,000 in federal railway delinquencies. And in all probability he is not the last one who will be affected in this manner.

—Some days ago Avistares the first, wishing to have a little fun, made a violent attack on the press of this city. But now he doubtless thinks that if he again wishes fun, it will be better to attack a hornet's nest.

—There was a meeting of British residents in this city at the offices of John Bradshaw & Co., on Saturday last, to take appropriate action on the death of the Duke of Clarence, eldest son of the Prince of Wales.

—The *Diário Official* of the 16th states that it was at the request of ex-Senator Siqueira Mouton that he was admitted to conferences with Vice-President Floriano Peixoto and the ministers of war and agriculture.

—A man named Ribeiro was stabled in the arm in Rua da Conceição on the evening of the 17th, by a soldier of the 10th battalion. The crime seems to have been done without the slightest excuse and through sheer malignity.

—The complaints of a scarcity of water are coming in from every part of the city. And yet, not only is nothing done to check wastage, but the authorities are intending to throw much of what we now have into the sewers.

—A telegram from Santiago, of the 18th, announces the wreck of the Pacific Mail steamer *John Elder* on the Chilean coast near Talcahuano. The ship and cargo are a total loss, but the passengers and crew were saved.

—It is reported that Barão do Rio Apa will be appointed to the command of the national guard, vice Gen. Almeida Barreto, resigned, and that he will be succeeded in the office of adjutant-general of the army by Gen. Comandante Nogueira.

—Municipal Councillor Barros, Figueiredo asserts that 60,000 kilos of beef, worth 36,000, shipped from Santa Cruz station, failed to reach S. Diogo, and he attributes the disappearance of this beef to employees of the Central railway.

—It is really getting worse! Gen. Almeida Barreto says that Vice-President Floriano Peixoto agreed to assist maintaining President Deodoro in office, instead of his (Gen. Almeida Barreto) offering to assist in deposing him. Duplicity is a two-edged sword; it cuts both ways.

—Lieut. Colonel Hermes da Fonseca and Capt. Clamindo da Fonseca have discovered, since the overthrow of Gen. Deodoro, that it is very bad for army officers to meddle with politics and they appeal to their comrades to let politics alone. Better late than never, gentlemen. It is in order now for Col. Fragile to deprecate the destruction of printing offices.

—On the 12th a horse went to a place in Laranjeiras after the remains of a person who had been decapitated. When the coffin had been placed in the hearse the driver asked for the papers to present at the cemetery. These not being ready the brute deliberately took the coffin out of the hearse and drove away, leaving the body in the street, where it remained for two hours.

—The intense hot weather which we have been experiencing, and the consequent increase of fever in the city, brought on only too frequently by exposure or improper food and drink renders it necessary for everyone to use the greatest precautions in these respects. Spirits, beer, heavy wines, etc., should be avoided, for which milk and Apollinaris may be substituted with the best results. Care should also be taken to avoid chills.

—According to a complaint lodged with the police by Mr. Carlos Haas, of the firm of A. Dreyfus & Co., his partner, Henry Elstein, temporarily cashier of the firm, has absconded with 200,000 from the firm's bank account and from cash paid in by customers. Elstein was arrested on the 12th, while attempting to escape. He confesses to a loss of 100,000 in holes operations and in gambling at his Nava Cassino Fluminense. Subsequent inquiries show that other parties were also re-imposed through loaning Elstein money which was of course lost in stock gambling.

—The minister of interior has consented that the *intendencia* of this city may enforce the mounting of automatic flushing tanks on the ground floors of all buildings, which shall be regulated to discharge every two hours. These tanks will hold from six to ten litres of water, and the houses must be provided with one for every three persons residing in the place. As there are not less than 40,000 dwellings which fall within these conditions, and as a discharge every two hours means at least 72 litres a day for each, the city will require a minimum of 2,880,000 litres a day for this purpose alone. Is the water available?

## A Tonic

A most excellent and agreeable  
tonic and appetizer. It nourishes  
and invigorates the tired brain  
and body, imparts renewed energy  
and vitality, and enlivens the func-  
tions.Dr. JAMES BLACK, L. R. C. S., Primrose  
Hill, Cockburnspath, Scotland, says: "As  
a nerve tonic, I know nothing like it. It  
gives me great satisfaction."Dr. THOMAS DAVISON, L. R. C. P. A. S.,  
Gosforth, Newcastle on Tyne, says: "I find  
it an excellent tonic in cases of mental  
anxiety induced by over-study in clergymen  
and others."Descriptive pamphlet post-free on application to  
Rusford Chesham Works, Providence, U. S. A.

Sole Agents
